EUROPE.

THE DEAD-LOCK NEARING ITS END.

Russia Prepared to Resume Negotiations for the Congress.

LONDON, April 12.—The *Post* publishes the following from Berlin: "Germany has not only refused Russia's request to guarantee the neutrality of Austria, in the event of war, but is further reported to have declared that she is prepared to interfere in any attempt made to hinder Austria from protecting her interests.

Captain Wellesley has gone to St. Petersburg to present his letters of recall as the military attache of the British legation. It is understood that no successor will be appointed for the present."

The *Times'* correspondent at St. Petersburg says: "Notwithstanding the gloomy views of the leading Russian newspapers, it is believed in official circles that the Congress will shortly meet." The correspondent adds that he has reason to believe this conviction has a pretty solid foundation.

Germany has not abandoned the intention of using her influence in favor of peace.

A Vienna despatch to the *Times*, states that Austria in a written statement of her views, which was sent to St. Petersburg, not only insisted on the European character of the questions at issue, but distinctly rejected the idea of a separate settlement.

A special to the *Times* dated Volo, April 9th, says an American ship came here yesterday, by order of the United States Minister, at Athens, in answer to the application of an American citizen. She will go to Salonica tomorrow to embark refugees.

A special to the Daily *News*, from Vienna says: "The Porte has asked Austria what would happen if Russia insisted on enforcing the treaty of San Stefano; Austria replied that she would not protect European interests single handed, but would protect her own interests most efficiently.

The *News* has the following from Berlin: "There is active competition between Russia and England in chartering steamers at German Ports. Two steamers chartered by Russia have left Hamburg with sealed orders.

The tone of the comments on the political crisis is much more hopeful from all directions than yesterday. The whole basis for this change seems to be the conviction that Russia is preparing to accept Germany's help to get out of the present dead-lock, by such concessions as will secure the meeting of the Congress.

Prince Gortschakoff's reply to Lord Salisbury's circular, and the circular to which it was annexed, were only published in St. Petersburg, on Thursday, which strengthens the belief that the former was telegraphed hither on Tuesday night, for a special purpose. The circular, when issued here Thursday afternoon, had a depressing influence on the stock exchange in consequence of the reiteration of the refusal to submit the treaty of San Stefeno to the Congress. Russian stocks declined over two per cent. to-day, however it is pointed out that although the circular offers no concession on the point at issue it is couched in such considerate and moderate language as to leave the door open for England to make some reply to the invitation for further explanation, and thereby furnish a basis for a common understanding.

At Vienna Prince Gortschakoff's reply created the impression of Russia's willingness to find an acceptable method for reopening negotiations. This moderate spirit is believed to be in a great measure due to the altered tone of the comments of the German, French, and Italian press, and the politicians concerning the treaty of San Stefano, which points to the probability of Russia instead of England being isolated in case of a rupture.

The Vienna Cabinet, which still firmly adheres to the idea of the Congress as the only possible solution, is greatly pleased at the improved aspect of affairs.

The German semi-official newspapers yesterday evening were not sanguine that either London or St. Petersburg will make the concession necessary to secure an agreement, but all information agrees that if the German government continues its endeavors to bring about an agreement, which it is not likely to do, after the case is hopeless. The improved feeling has therefore substantial justification.

The alleged circular of Prince Gortschakoff, a summary of which was printed this morning by the "Central News," and of which seemed to reply to Austria's objections, is probably a stupid hoax of some Paris newspaper.

There seems to be some disposition at St. Petersburg to show Roumania more considerations. It is now announced that Prince Gortschakoff meant that the stipulation for the passage of the Russian troops through Roumania was not the question of the cession of Bessarabia, and could not be submitted to the Congress. It is also stated that a Russian Commissioner will go to Bucharest to treat with the government concerning the passage of troops.

M. Stevtcha Mihailovitch, the Servian Minister, President, has resigned, in consequence of the vacillating policy of the Servian government.

It is said that Anglo-Austrian influences are now in the ascendant at Belgrade, and that there is a disposition on the part of Servia, Roumania and Montenegro to make a joint remonstrance to the powers against the treaty of San Stefano.

Death of Boss Tweed.

NEW YORK, April 12.—A telegram was received at the sheriff's office this afternoon, stating that William M. Tweed died in his room at Ludlow street jail at noon to-day.

William M. Tweed died in Ludlow street jail at precisely 12 o'clock to-day. He was attended by Dr. Cornochan, who has been with him since an early hour this morning; also Mr. Foster Dewey, his late Secretary; Mr. Douglass, his son-in-law, and Mr. Edelstein, one of his counsel. All hope of his recovery was abandoned soon after 11 o'clock, when Dr. Cornachan announced a clogging of the heart and complete nervous exhaustion. At the time of his death there was no struggle, as he passed away in sleep with his head lying upon his arm. Keeper Kirnan was hurriedly summoned three minutes before noon, and reaching Mr. Tweed's room the signal rang out, and the long-prisoned old man dropped back dead in his bed. His last words to Dr. Cornachan were: "I have tried to do some good. If I have not had good luck I am not afraid to die. I believe the guardian angels will protect me."

The announcement of his death spread rapidly, and a crowd of curious people soon assembled outside the jail, peering eagerly into the half closed windows.

Tweed had been dangerously ill for several days. His death resulted from a complication of disorders, but was caused directly by nervous exhaustion and a clogging of the action of the heart. He was delirious last night and early this morning, when he was attended only by his servant, Luke. Later he became calm and rational. He was conscious till within a few moments of his death, and a short time before drank a little tea which was handed to him by his son-in-law, Mr. Douglass. Most of Tweed's family are in New Orleans. They were telegraphed to yesterday.

Under the statutes the body of the dead prisoner cannot be removed from the jail, until after an examination by the Coroner.

Forty-Fifth Congress.

WASHINGTON, April 12.—The Senate is not in session to-day.

The House is considering private bills.

The Levee Committee has been strengthened by Eustis, of Louisiana, and Cameron, of Wisconsin. It is expected they will accomplish something. Bruce, the chairman, is hopeful of securing early legislation.

HOUSE.—The bill, to compensate the College of William and Mary, in Virginia, for the wanton destruction of its buildings by some federal soldiers while in the federal occupation during the war, came up to-day and gave rise to quite an interesting and exciting debate.

The debate was opened by Goode, of Virginia, who reported the bill, and who advocated it in an able speech, which was occasionally interrupted by applause. He was followed by Loring, of Massachusetts, in a very learned and eloquent speech in advocacy of the bill, in which he depicted the establishment growth and national importance of American Colleges and Universities, and dwelt upon the historical fame and renown of the College of William and Mary. He said that if Harvard had sufferpd in a like manner he would appeal to Congress (not on the ground of a legal claim, but on the ground of historical associations,) for compensation, and that what he would do for his own *alma mater*, he would as freely do for the College where Washington and Jefferson, Madison and Monroe, had had their minds trained to the service of their country. His speech, like that of Mr. Goode, was highly applauded.

NOTE—Then followed Reed, of Maine, and Townsend, of New York, in opposition, waving the "bloody shirt" and mocking at Virginia because of her poverty. We do not care to circulate their stale stuff.—EA. NEWS.

Washington Notes.

WASHINGTON, April 12.—Mr. Stephens was able to attend his committee this morning, for the first time in ten days.

Mr. Bell, of Georgia, appeared and made an earnest argument in favor of Athens, Ga., as a proper place for one of the proposed branch mints.

A meeting in the interest of the Franco-American trade, was held last night, and adjourned at a late hour. An elaborate statement was made by Chatteau. General Banks presided. Senators Hill, Eustis, Butler, of South Carolina, and Jones, of Florida, and Representative Tucker, of Virginia, were among the prominent speakers. Senator Eustis said as a citizen of Louisianna, he felt a deep interest in this subject. The people whom he represented were united to the French by tradition, association, language, and a large portion of them by religion. As a citizen of that State, he gave this movement his hearty and sincere commendation.

Mr. Chatteau, through Gen. Banks, tendered his heartfelt thanks for the attention which the company had paid to his remarks, and for the encouragement they had given to him in expression of their views. The company then separated without taking any formal action.

The Platform of the Illinois Democrats.

SPRINGFIELD, ILL., April 12.—The preamble to the platform of the Illinois Democratic party is as follows: "The Democracy of Illinois assembled in Convention, congratulate the country on the final settlement of the questions resulting from the late civil war, upon the principles of local self government so long supported by the Democratic party, and re-affirm confidence in the capacity of the people to govern themselves, and their belief in the supremacy of civil over military power. Liberty of individual action, uncontrolled by sumptuary laws. The separation of church and State; the support of free common schools, and the duty of all to yield to the lawfully expressed will of the majority.

Supplementary to the platform, are the following resolutions:

Resolved, That the acts of the leaders of the Republican party in defeating the choice of the people for President and Vice-President is the monster political crime of the age, as a crime against free government and elective franchise, which can only be condoned when the criminals are driven from power and consigned to infamy by the people whom they have outraged, and we denounce the act of the President in appointing to high offices corrupt members of the Returning Board as a reward for their infamous conduct, and we condemn the officers of the federal government which have attempted to interfere with the administration of justice in the courts of Louisiana.

Cotton Brokers Circular.

LONDON, April 12th, 1878.—This weeks circular of the Liverpool cotton brokers association says the cotton market was active in the early part of the week and there was considerable business at higher prices and though on Wednesday and Thursday the feeling was quieter, quotations of some descriptions show an advance. Americans was in active demand and prices have advanced generally ¼d. Sea Island was in moderate request, chiefly for medium grades of Florida prices are unchanged. In futures with considerable fluctuations prices advanced ¼d until Tuesday noon since, we hear the tone has been quiet and 1-16d of the improvement was lost.

COURT HOUSE CLIQUES.

Rings that Skin County Creditors.

(Correspondence of the NEWS.)

OXFORD, April 12, 1878.

In olden times they had gladiatorial and bull-rings, carried on for the amusement of vulgar minds that might have been more usefully engaged. And we used to have militia musters in our country with their fighting rings. When two men wanted to fight, a ring was made for them to fight in, in which no one was to go but the combatants until one of them was fairly whipped, and cried "enough." But they were fighting—not pauper-shaving, radical-"skinning rings." The combatants would have scorned the idea of joining the skinning rings that disgrace the name of humanity in some of the counties of our State. In the old muster rings a skinned eye was occasionally seen, but the "skinners" in our court house rings can skin a man from head to foot, while making him think they are doing him a favor. When the victim of their avarice is very dependent, they will not only take off all the hide, but take a little of the flesh with it.

But, say some, you can't stop the skinning process going on in the court house skinning shops of the State. Well, really, if our county skinning rings have become so potent, and are sunk so low in moral guilt that nothing but fire and brimstone from Heaven can arrest their inhuman action, (as it did the Sodomites,) the sooner the descending shower relieves the country of its pressure, the better. Because a wolf is a wolf, must it be allowed to destroy and suck the heart's blood of the flock? No, never! Make him tuck his tail, and hurriedly retreat from the fold, no more to fleece and destroy the healthful harmony of the flock. Does any one suppose there would be any skinning deputies in a sheriff's service if he would not appoint and retain such characters? If an honest sheriff of a county would honestly collect the tax money, and honestly pay it over to an honest treasurer, and the honest treasurer would honestly pay the honest order holders their dues, does any one suppose the court house skinners of a county could get their hands on that money to skin dependent, order holding paupers with? When the sheriff of a county has no money to pay any ones orders but those in the hands of the skinners he appoints and retains in his employ. To a man not very well versed in arithmetic, it looks a little like he not only appointed the skinners (deputies) and held the victims they were skinning, but was actually furnishing the knife to skin with.

If I were treasurer of a county, and knew the Sheriff was refusing county orders for taxes, but requiring and collecting the money in payment of county taxes if he didn't pay that money over to me, but attempted to substitute county orders in place of the money it was my duty to receive from him and receipt for, I should feel it my duty to inquire how it was, and by whose sanction and authority the tax money was changed into orders before it reached my office. With a sheriff paying no one's orders but those in the hands or his selected skinners, and the treasurer willing that they should have the preference in such matters, the honest order holders of a county have a very poor showing. If the people want fair dealing in official circles they must guard their interest by putting men in power too high minded and honorable to descend to low and degrading trickery and deception. No man should hold the position of sheriff, commissioner, or treasurer in a county, if he is mean enough to countenance skinning rings, —sink the credit of his county—and with-hold from dependent ones their needed dues, to feedcircling vultures that thrive and fatten in the unwholesome atmosphere of official corruption.

People may talk about the impossibility of checking the action of the court house, skinning rings of our State, but one thing is certain, where merciless skinners thrive and fatten right under official noses in any section, there is official rottenness and corruption near by. When men at the helm do their duty, looking to the illuminating and directing light ahead, their vessels are pretty sure to ride safely into port.

TAX PAYER.

Sparks From the Wires.

A fire at Bay City, Michigan, destroyed six million feet of lumber, seven thousand barrels of salt, and the docks owned by Eddy, Avery & Company. Loss, $200,000.

The brig Kalema, from Cienfuegos, arrived at New York, to-day with the captain and crew of the schooner Jonas Smith, from Savannah for New York, abandoned April 8th in latitude 34 longitude 73.

Yesterday George McKey, alias John W. Scott, serving a term in Hamilton county jail, for robbing the postoffice in Green county, was pardoned out by President Hayes and taken to Mount Vernon, Ohio, where he will be tried for the murder of John McCormick, a wealthy hardware merchant. The murder was committed in 1875.

Right Reverend George Augustus Selwyn, D.D., Bishop of Lichfield, England, is dead.

A despatch from London says that the betting on the boat race to morrow is three to one in favor of Oxford.

Twenty-six of the crew and passengers of the British steamer Childwall Hall Liverpool for Bombay via Suez Canal wrecked of Portugal are missing.

All the savings banks of Fall River to-day are exacting sixty days notice. The directors of the Union Mills are still engaged at their work. The amount of the defalcation up to this time is 519,000 dollars, and will probably be greater.

NASH NOMINATION.

Hugh F. Murray, Esq. for Solicitor.

(Correspondence of the News.)

NASHVILLE, N. C., April 11th, 1878.

Knowing that your valuable paper is always striving to diffuse public sentiment, and having seen in the daily and weekly press, the names of several gentlemen brought forward for the position of Solicitor of this, the third Judicial District. I, too, am constrained and prompted to write of one (of the above alluded to) who has ever stood abreast with the most patriotic in the performance of public duty. I write to endorse, in the name of a large portion of the Democratic yeomanry of this county, Mr. Hugh F. Murray, of Wilson. Mr. M. has every essential, every requisite to make a good prosecuting officer—experience, practice, native and acquired ability. He is about thirty-one years old, has been practising law about ten, has been, and is now, a close, hard student, possesses a quick, penetrating mind, and is truly one the rising men of North Carolina. He has claims of another nature. In his county and that black Congressional District he has been a gallant worker in the cause of democracy. He has never faltered, but at all times and under all circumstances his eloquent voice has been raised, and his trenchant pen wielded in advocacy of an honest administration, civil, religious and constitutional liberty. Mr. Murray deserves some recognition at the hands of our party, and I am persuaded to believe that when the Convention meets the nomination for the above mentioned officer will be awarded him. From the present outlook he will get on the first ballot the solid vote of four large counties and one small one.

TAR RIVER TALK.

Chief Justice Smith.

[Special correspondence of The News.]

GREENVILLE, N. C., April 11th, 1878.

I have been reading with a great deal of interest, and almost with amazement, the discussions in the newspapers over the nominations for Chief Justice and the associate justices of the Supreme Court. I cannot imagine what "change has come over the dream" of some people who, when Gov. Vance first appointed W. N. H. Smith Chief Justice, joined in a loud hallelujah of praise to the Governor and his appointee, and who now are doing all in their power to prevent his nomination. I have taken some trouble to find what the feeling in this part of the State is, and I have come to this conclusion: Mr. Smith is the almost unanimous choice of the people, and there are many who will not vote for Mr. Schenck under any circumstances. No matter how innocent he may be, the prejudices of a great many people are against him, and prejudice is the hardest thing in all the world to combat. As to the articles on the subject from the New York *Times*, they are the merest "bosh" and sensational nonsense. To my own personal knowledge, Lieutenant-Governor Jarvis has not "put on his war-clothes for Vance;" nor has he done anything in opposition to Judge Merrimon or any one else, that any of his personal friends know of, except to state his own private views in the matter. On the contrary, he has been for several days at the bed-side of his father, who is lying very ill at his home in Currituck county, and may be, ere this reaches you, out of the hearing of the strifes and turmoils of earth. That there are men enough, and to spare, to hold all the offices, is potent to every one. The misfortune is that, there is not an office for every man who desires one. I have no sides to take in the controversy. I have known Mr. Smith ever since I was a small boy, and a purer type of manhood in its fullest sense I do not know. Give us a pure man, with as little politics in him as possible, for that position which *he* now holds. The idea of making the candidates for the Supreme Court judgeships dependent upon, or entangled in any way with the Senatorial canvass, is a perfect shame. Away with it! Put your political partisans in the other offices, but give us Judges with unspotted ermine.

THE SUPREME COURT.

Patrick Henry Winston, of Bertie.

[Correspondence of the News.]

I beg to urge for Associate Justice of Supreme Court, Patrick Henry Winston, of Bertie. Without, in the least disparaging the merits of a hundred gentlemen in the State qualified for and worthy of the position, I submit that none is better qualified than Mr. Winston.

He is well known to the Bar of the entire State, and no stranger to the great body of the people. It is therefore, not necessary to enlarge upon his merits; nor would it render more conspicuous his peculiar fitness for the place, to assail other gentlemen, the partiality of whose friends has presented their names in connection with the Supreme Bench. The friends of Mr. Winston do not claim for him all the legal knowledge of the State. His patriotism is not paraded as the peculiar possession of one man alone among his fellows. It is enough to say that in every essential he is as good as the best, and in every respect would ornament the highest Judicial Bench in the State. As such he is the preference of a large number of friends and admirers all over North Carolina who desire the opportunity of voting for him for Supreme Court Judge.

ANOTHER MELTING.

Halifax Hanging Fire.

[Correspondence of the NEWS.]

ENFIELD, N. C., April 10, 1878.

Our Inferior Court is in session and quietly progressing. The question of the Chief Justiceship continues to agitate our county. The condemnation of Chief Justice Smith receives no endorsement from our *people* among whom he has ever been popular. The course of the late County Convention did not express the views of this county and another one will inevitably be called. Our people do not so readily forget tried friends and public servants like W. N. H. Smith nor are they likely to fall in love with this new style of electioneering for Supreme Court nominations. The letters of Messrs. J. M. Mullen and Ed. T. Clark to the NEWS expressed correctly the views of hard-handed, industrious masses, who do not intend that a few intriguing politicians and lawyers shall capture the county. We regard your paper as the best ever published in Raleigh. It is emphatically the *people's paper* and is always reliable and newsy.

EDGECOMBE SENTIMENT.

Military Organization--Agricultural Advancement.

(Correspondence of the News.)

TARBORO, N. C., April 11, 1878.

The political contest thickens. Every day a new aspirant seeks the suffrages of the people. From Craven, from Halifax, from Bertie, and from Edgecombe, to the press, are sent multitudes of eulogies on the men from these counties, offering them to North Carolina as an ornament to her court of last resort. Among and above these, one looms up in grand proportions, in legal attainments, natural abilities, and peculiar fitness for such a position, one who would not seek the office, but whom the office should seek—*Hon. Geo. Howard.*

Cabarrus has opened the game rightly and well. When the convention assembles Edgecombe will return her the compliment.

While I am writing about politics, I would suggest to the friends of Judge Schenck, not to defend him so much; people do not credit the ku-klux stories, nor will they, unless he is defended too much. The Judge is too highly esteemed by our people for them to think he needs defending.

We, like all communities which disapprove of Federal interference, but endorse the principle that each State should maintain and enforce its own laws, have a military company—the Edgecombe Guards,—named in honor of the company organized at the outbreak of the war, and which made an enviable record "while the dogs of war were howling" The rank and file of the company number sixty-one, well officered and equipped.

The European complications have not in any wise deterred our farmers from planting so much cotton. It has such a firm hold upon their affections that for many years it will be the principal, if not the only product, for exportation. Some of our most successful farmers say that they can make money on cotton if it brought only 8 cents per pound. Very many, however, make none when it is 10 cents.

The wheat crop in the county, though not as much was sowed as probably should be, is excellent. Should the season from now until harvest be propitious, an abundant yield may be expected. The same may be said of oats, clover, and some of the grasses.

"EASTERNER"

Superior Court of Craven--His Hon. Judge Kerr Presiding.

(Reported specially for the News.)

His Honor is putting business through very rapidly. The following are some of the most important cases tried up to this writing.

Frederick Reel, charged with stealing a cow; the jury returned a verdict of guilty. The Judge sentenced Reel to the Penitentiary for three years.

State vs. J. Gaskill Slade and Shade Clark, charged with larceny, the evidence showed that a colored woman sent her cow to Slade's wife, another colored woman, with the understanding that she, Slade's wife, was to give her half of the milk, and that Slade and Clark had turned the cow over to Mr. Cohen, a gentleman who had a mortgage on some of their property. The jury, after an absence of several hours, returned a verdict of guilty.

In the case of Wingate, Daniel Webster and Aaron Odenton, for breaking in a house about fifteen miles from Newbern, the jury returned a verdict of guilty for Wingate and Webster, and the trial of Odentou was set for Friday next.

A very important capital case is progressing—a negro named Robert Lee, for breaking into the store of Blank & Ulrich, and stealing merchandise. A jury will be selected out of fifty freeholders to try the case.

THE INTER-RAILROAD.

Megissa and Dymond City.

(Correspondence of the NEWS.)

BEAUFORT COUNTY, N. C., April 9th, 1878.

Megissa is the singular name of a station on the new Jamesville and Washington Railroad. Enquiry developed the fact that President Fisher had hit upon the novel name by taking the initials of his wife and six daughters.

Dymond City, another station on the new road, is quite a flourishing little place, and has large steam mills in operation.

The Jamesville & Washington Railroad Company are building a wharf, and propose to build a large hotel also, at Washington, N. C. They have completed a large hotel at Dymond City. The completion of this Railroad has infused new life into this whole section.

President Fisher could easily be elected to the Legislature, if he will go.

It is probable that he will extend a branch of his Road up to Tarboro.

The NEWS is very popular here, especially from the interest it has always shown in our section. X.

THE GALLOWS IN GREENE.

Execution of John Shallington.

(Special to the Raleigh News.)

GOLDSBORO, April 12.

John Shallington, colored, convicted at March term of Greene Superior court, of the murder of Lorena Thompson, his step-daughter, was hanged today, at Snow Hill. He promptly ascended the gallows at 2.30 P. M. Two thousand people were present, and he addressed them from the scaffold for over half an hour, protesting his innocence to the last.

On arriving at the scaffold he asked for a cigar, which was given him, and he smoked composedly for five minutes. He then desired to be taken to the creek for baptism, which was not done, but the ordinance of baptism was administered on the scaffold. He did not seem to realize his situation until the Sheriff began to adjust the noose, when he was observed to shudder. Life was pronounced extinct in thirteen minutes by Drs. Rountree, Jones, Horn and Allen.

The Charlotte Cock Fight.

The Charlotte *Observer* says: "Yesterday morning Messrs. Arrington and Holt, who represented the North Carolina side in the cock fight, left for their homes. They, however, disposed of several cocks to parties in this city, and fights between these and the Georgia cocks were going on nearly all day in Tom Black's pit, the Georgia cocks making a complete victory. The North Carolina men stood by their cocks to the last, and some of them lost pretty heavily. There were also a number of stag fights during the day at the same place and there was a crowd on hand all the time. The Georgia men left last night in high spirits and ready for another fight at at any time North Carolina sees fit to send a challenge."

OUR FISH SUPPLY.

Work of the Fish Commissioners.

(Special to the News.)

WELDON, N. C., April 12th, 1878.

The Fish Commissioners were here yesterday—Messrs. Henry B. Nicholas, of the Virginia, and W. M. Russ, of the North Carolina Commission. They put into the Roanoke river at this place, 150,000 young shad. The members of this "fry" were, of course, very diminutive, but they appeared to be in fine condition, and were quite lively.

Mr. Thomas Taylor went over with 100,000 for the Nottoway river in Virginia. C.

The Meherrin river had 100,000 shad put in the day before. [Ed. NEWS.

Franklin (La.) Sun: The buffalo gnats have appeared in quanties. We learn that a number of horses and mules have been killed in the southern portion of the parish by these little pests, and that Messrs. Russell and O'Brien alone in the northern portion of the parish lost nine head. As they generally last but a few days it would pay, where they are so bad, to suspend work and make good smokes.

Key West (Fla.) Patriot: In one of our exchanges recently, we saw the announcement that Mr. Conover designed to appear before the next Legislature as a candidate for re-election to the United States Senate. Should this prove true, it will only sink him deeper in the bottomless pit, if possible, than he at present stands. During his whole career as a United States Senator he has only accomplished one odious feature, which is to sell and barter the Federal patronage which a fraudulent President gave him to the highest bidder, for his own personal aggrandizement.

Kentucky Gazette: We hear from a trustworthy source that there is a great deal of suffering among the colored emigrants that have left this State to seek homes in Kansas. There is considerable excitement among the colored people of this city on account of these reports. The emigrants have been decoyed off by their preachers and other agents who get paid so much a head for each emigrant, and after the poor wretches get to their destination no sort of care is bestowed upon them. It is the opinion of the better class of colored people that the preachers might be better employed than deceiving their flocks in this manner.

STATE NEWS.

Winston Republican: We are informed that on Monday, Elias Crews shot Jackson Crews, aged 13 or 14 years, in Middle Fork Township, which will, no doubt, prove fatal. Some are under the impression that it was an accident, but it seems that Elias got a pistol from his brother and went to where Jackson was at work and shot him without any cause whatever.

Winston Sentinel: F. W. Reese, Esq., near Broomville, Yadkin county, lost his dwelling house and most of his household goods by fire on Tuesday night of last week. The fire is supposed to have caught from the kitchen stove. Loss about $2,000.

Salem Press: The Water Supply Company have dug a race along Bath Branch, to furnish power for forcing water into the reservoir to be built near Fogle Bro's Saw Mill. The water will be distributed by pipes through the town, having ample fall to carry it anywhere. When completed, Salem will be better supplied with water than any town of its size in the State.

Tarboro Southerner: Mr. Mantz Hart, while skimming down the river at the Little Falls in this county on Saturday, dragged up a quart tickler, containing a cat-fish. The fish, on festivity bent, is supposed to have been seduced, by the scent of the "craytur," into the tickler, in his babyhood, got drunk on the fumes and grew so rapidly he couldn't get out. It was necessary to break the bottle to get him out.

The Plymouth correspondent of the Tarboro Southerner says: Ben Smallwood, colored, was arraigned on Wednesday for the murder of Britton Veal, colored, and sentenced to be hanged on Friday, 31st day of May, 1878, between the hours of 5 and 7, in the jail yard at this place. Smallwood committed this murder several years ago in Bertie county.....Capt. Levi Jackson informed your correspondent that he caught only ten thousand herrings, and a good many rock and shad, including one very large sturgeon, on yesterday.

Greensboro Patriot: There have been sixteen convictions up to date in the Federal Court, and three acquittals. Thirty new bills of indictment have been found. The suit of the Bank of Mecklenburg vs. heirs of Thomas R. Tate, has been compromised.....The many friends of Mr. Will. C. McAdoo will be pained to learn of his death, which took place Monday afternoon at the McAdoo House, in this city..... General Scales is working industriously for an appropriation to erect a post office building in this city, with a reasonable prospect of success, if our people who are interested show any zeal in the matter.

The Baltimore *American* of Tuesday says: "The first mortgage bondholders of the Wilmington, Columbia & Augusta Railroad Company met yesterday at noon over the First National Bank, on Gay street, for the purpose of taking action to ascertain the status of the road and for the interchange of propositions for the improvement of the outlook. A committee was finally appointed to make an investigation into the affairs of the company and report at a future meeting, as well as to ascertain such other information as might be found proper relating to the Company's condition and prospects."

"IN THE PRIMARY MEETINGS WE URGENTLY RECOMMEND THAT THE UTMOST FAIRNESS AND IMPARTIALITY SHALL BE OBSERVED—THAT HARMONY SHALL BE CONSIDERED OF PRIME IMPORTANCE, AND THAT NO PRACTICES TENDING TO DISAFFECTION OR DISORGANIZATION SHALL RECEIVE THE SLIGHTEST COUNTENANCE OR SANCTION."—*Extract from Address of Executive Committee.*

THE diplomats have no mercy for the repose of Europe.

WILLIAM M. TWEED died yesterday. The old man is at last released. His case is now in the hand of a just Judge, who cannot err.

THE truck farmers in the eastern portion of the State are preparing to ship early vegetables to the North, and will be in the market before the fifteenth of the month. Our coast counties present the finest facilities in the world for vegetable raising; and with their fish and oyster supplies, to say nothing of the other and important productions of cotton and grain, there is a splendid outcome for Eastern Carolina.

FROM every portion of the State comes the most gratifying reports from the winter and spring planting. The soil is said to have never been in better condition to receive the seeds of the husbandman, and with propitious seasons, the summer harvests and gathering of fall crops will be more abundant than ever recorded in North Carolina. These indications should stimulate industry on every hand, and invoke a Universal gratitude to Almighty God for these blessings.

THE new tariff-bill under discussion in Congres, it is claimed, will save to the revenues of the country ten millions annually. It re-adjusts the import duties—placing them where they most belong. On the luxuries of the rich the duties are increased, while on articles of prime necessity to the poor they are reduced. The new tariff-bill is a Democratic measure, and if it shall prove of the great public beneficence its authors proclaim for it, it will be the most important triumph the Democratic party has yet achieved in the direction of retrenchment and reform through the National Legislature.

IN presenting the views of a number of gentlemen from different sections of the State, touching the matter of the Supreme Court, we are to be understood as indicating thereby no preference of our own. We should not deem it proper to give expression of preference in these columns, as the NEWS, professing to be a party paper, could hardly afford to become the personal organ of an aspirant, but giving to the friends of all, impartial access to our columns, it is proper that editorial expression should await the decision of the State Convention, when we shall take a position in the front ranks in behalf of the ticket presented.

THE work of fish-hatching in the waters of the Albemarle Sound by the new process recently discovered, is progressing finely. This process, by a gentleman from the State of Maryland, has been adopted by the States of Maryland, Virginia and North Carolina, which are co-operating in the work in the waters of our State, and it places our country ahead of the world in the science of propagating fish. The energetic head of our Agricultural Department is entitled to very high credit for the enterprise and intelligence he has displayed in this branch of the Department, and in the selection of his corps of operatives he has been judicious and fortunate. The public will appreciate what has been done, what is doing, and what is yet to be accomplished in the work of increasing the supply of fish.

CONGRESS will doubtless restore the income tax on all incomes over $2,000. Every poor laboring man who buys five cents worth of tobacco to cheer his weary working hours, or a quart of whiskey to revive his drooping spirits, pays a revenue tax. Then there appears no good reason why the owner of a million dollars of United States bonds, bought, many of them, when greenbacks were worth only forty, fifty and sixty cents on the dollar, and drawing six an seven per cent. interest in gold, shall pay no tax on his immense and easy income, while the poor man is required to pay tax on such things as, it seems to him, he must have for his physical comforts, to nerve him for his task and make the hard lot of his life tolerable. The sweat of a poor man should concern Congress as much as the sweat of the dollars of the millionaire.

WHILE the court records disclose that a very large number of convicts are finding their way to the Penitentiary, it is gratifying to note that the crime detected and being punished is so rarely of the worst phases. Of capital crime it cannot be said that is on the increase in our State. While our statutes prescribe the death penalty for four offenses a man may commit, it may be safely said that there are fewer convictions for these than in any other State of proportionate population. As the colored people improve in morals and intelligence, as we hope and believe they will, the milder offenses now so common to that race will diminish in number, and it should be the pleasure, as it is the duty of every white man to afford them every encouragement and example in the direction of good morals, law and order.

Selma.

In our sketch of Selma the other day it was omitted that the town government is Democratic, and has been from the incorporation of the place. Also, that in the county election held in 1876, on the removal of the county seat from Smithfield, while "Removal" was defeated by four hundred and ninety, the majority for Selma over other points voted for at the same election was nearly three hundred in favor of Selma.

In the new election for removal of the county seat provided for by the last General Assembly, which will probably be held some time during the year, while the people of Selma will make every effort in their own behalf, they do not desire it to enter into the general campaign.

Hopeful of the future of the place, as we are hopeful for the future of every town and section of the State, and for which we shall at all times impartially labor, we would call attention to the fact that desirable lands in the vicinity of the town can be bought on the most liberal and easy terms.

The Press Convention.

We trust the North Carolina Press Convention will be well attended this year. It would be of infinite advantage to members of the profession if they could meet more frequently, and the annual meeting should in no case be neglected.

The Association meets this year at Catawba White Sulphur Springs, where the gentlemen of the press will find most excellent entertainment and a hearty welcome by Dr. Elliott. The Charlotte *Democrat* noticing the meeting, says:—

The time has been fixed for the 3d of July as the most suitable one in view of the fact that the Democratic State Convention meets the middle of June and college commencements will occupy the balance of that month; so that early in July is thought to be the best and most convenient time for all concerned. It suits Dr. Elliott, the proprietor of the Springs, who desires to entertain the members of the Association on the occasion.

The Secretary of the Association, Mr. Davis, at Oxford, will correspond with railroad companies to secure reduced fare on the different railroad lines.

Narrow Gauge Railroads.

Enterprising people in many sections of the State are manifesting a lively interest on the subject of narrow gauge railroads, which must become the auxiliary arteries of travel and traffic at the South. They are comparatively cheap of construction, and their capacity for business astonishing in proportion to outlay put upon them. The estimated cost of construction is set at about half; their equipment less, their operating expenses small, wear and tear trifling in comparison with the broad gauge, while their capacity is said to be from eighty to ninety per cent. of the old roads.

We trust our people will push these matters upon public attention, and ramify the State with these little railroads. They are the lines to penetrate the mountains of our State, where the people have been long languishing for railroads to develop their boundless resources. The system, adopted twenty-five years ago, would have given railroads to three-fourths the counties of the State.

Two of these lines are now in operation within our borders, the Chester and Lenoir, and the Milton and Sutherlin. Two are under construction, and the subject is being agitated here and there in a manner to indicate that there is much new life and energy in the old land.

Sherman and the Shylocks.

The immortal William was prophetic of Secretary Sherman, the bullionists, and bankers of the North, when he left it to be inferred to what extent the world was given to lying.

The telegraph brought the information, on Thursday, that Secretary Sherman had concluded a contract with bankers of New York for sale of fifty millions of four and a half per cent United States bonds, ten millions paid down, and five millions per month to be paid until the first of January next.

During the discussion of the silver bill, Mr. Secretary Sherman and these bankers; proclaimed it loudly to the world, subsidized the leading Northern press to make more potent their protests and proclamations, that the remonitization of silver would depreciate the government bonds, and destroy the credit of the United States at home and abroad. They said the restoration of silver to the standard of money was repudiation, and epithet was exhausted in denunciation of the supporters and advocates of the silver bill.

The silver bill passed. The mints went immediately to work coining the new dollar, and we have again the pewter of our parents. The credit of the country has not suffered abroad, and government bonds, purchased during the war all the way down as low as forty per cent, and drawing a high rate of interest in gold, are not floating around among the rag pickers to any considerable extent.

On the contrary, the Minister of Finance who, in his individual avarice and official corruption, sought to discredit the paper of the government whose financial head, to the shame of the country he is, has gone to the money centre of the nation to negotiate a sale of fifty millions of United States bonds at a low rate of interest, and met with the most perfect success among the bankers and money lenders who but yesterday declared their impending ruin because, forsooth, the silver dollar was not the pound of flesh they wanted.

Sherman and the Shylocks; money making, lobbying and lying, syndicating and shaving, are to them congenial avocations, and they possess equal and ready facilities for all,

Will prevent and Cure PARALYSIS.

ENJOYED A GOOD NIGHT'S REST.

SO. LAWRENCE, MASS., April 30, 1877.

MR. H. R. STEVENS:—

Sir,—Some five years ago I commenced taking Vegetine. At that time I had had a shock of Paralysis, and could not walk across the room without assistance. I found great relief from it at first, but discontinued the use of it again, and am now able to do my own work, and am washing to-day. I had taken large quantities of morphine, and was unable to sleep. I have found Vegetine to be a great quieter of the nerves, and after taking it have been able to enjoy a good night's rest. I believe it to be a good medicine, and cheerfully recommend it to others.

A. S. ROBERTS,

No. 1 Kingston Court, Lawrence Mass.

Nervousness, and all derangements of the nervous system are usually connected with a diseased condition of the blood. Debility is a frequent accompaniment. The first thing to be done is to improve the condition of the blood. This is accomplished by taking Vegetine. It is a nerve-medicine, and possesses a controlling power over the nervous system.

I have seen the Remedy tried, and know it is good.

NEWPORT, KY., April 17, 1877.

H. R. STEVENS, Boston, Mass:

Sir,—Having sold and recommended your medicines for the last three years perhaps you would ask why I should recommend them. I will answer by saying, that I saw such beneficial results in a young friend who has been affected with a disease for two years which was brought on by his own imprudence; and he had taken but one bottle when it showed its power to successfully fight the evil, so that I have always recommended it to young friends with bad blood. If you wish to use this as reference, why, I say you can do so, as I have seen the remedy tried and know it is good.

I remain, yours very respectfully,

G. M. MILLER,

H. R. STEVENS:—

I have much pleasure in informing you that after seeing the perfect cure of a three-years-old case of Dropsy by a friend of mine, I tried to get cured of an old trouble of mine, Dyspepsia. The use of four bottles of Vegetine, according to your directions, was a great success, and I am free of my old enemy. The use of your Vegetine has effected a perfect cure.

Respectfully yours,

DR. TUTT'S SARSAPARILLA AND QUEEN'S DELIGHT THE GREAT BLOOD PURIFIER,

KNOWN FAR AND WIDE FOR ITS WONDERFUL VIRTUES.

Thousands of victims of Scrofula, Rheumatic patients who have cast aside their crutches; sufferers from syphilitic taint an mercurical poison, all over the land, bear witness of its efficacy.

The seat of these diseases is in the blood, and impure blood causes unhealthy secretion, which develop Eruptions of the Skin; Sore Eyes, foul Discharges from the Nose, Ears and Womb; White Swellings; Scald Head; Night Sweats; Whites; Sallow Complexion; Kidney Disease; Nocturnal Emissions, and a long train of direful ills.

DR. TUTT'S SARSAPARILLA

Is a concentrated extract of the curative properties of roots and herbs which act on the blood, coming in direct contact with the germ of disease, extending its influence to every part of the system. **It is a powerful alterative, and literally**

A RENOVATOR OF THE BODY.

Under its influence the eyes grow sparkling, the complexion clear, and unsightly blotches rapidly disappear.

The value of this compound in general debility can not be overestimated. It arouses the flagging energies of life.

TO THE LADIES.

SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S KATHAIRON,

discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

BESIDES BEING THE BEST HAIR DRESSING EVER PRODUCED, LYON'S KATHAIRON WILL POSITIVELY PREVENT GRAYNESS, AND WILL RESTORE NEW HAIR TO BALD HEADS, if the roots and follicles are not destroyed.

It actually performs these seeming miracles of which the following is

A FAIR SPECIMEN.

I had been entirely bald for several years constitutional, I suppose. I used a few bottles of Kathairon, and to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur, sugar-of-lead, to paint and daub the hair, and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair to its natural growth and reinvigorate. It is splendidly perfumed, and the most delightful toilet dressing known. No lady or gentleman's toilet outfit is complete without Lyon's Kathairon.

TEA.

Teas are now very low, lower than at any one time in our remembrance, and as one pound of Tea will go as far as five pounds of Coffee no further evidence of its economy is needed. The usual custom has always been to make Teas pay a heavy profit on account of the light demand for them, but we have found that by selling good Teas at a small margin that we have created a demand for them that increases every day. We are in receipt of the following styles of Teas which are cheaper than ever:

Oolong, Japan, Gun Powder, Imperial, English Breakfast, Young Hyson, Twankey and He No Chop,

DAILY NEWS.

SATURDAY, ... APRIL 13, 1878.

An Apology for Flirtation.

"Ah! women are fickle!" you tell me,
Well, yes—if by fickle you mean
A little less false than you men are
And greatly more true than we seem."

"But women are cruel—so cruel!
They flatter and coax for a while,
Then tread on the hearts that we give them,
And deal us a blow with a smile."

"We are cruel it may be, but cruel
In a million of charming ways;
So sorry at times to have hurt you,
So kind on the gloomiest days.

"But you men!—you calculate nicely
How near you may go, or how far,
And never one moment you soften,
Nor pity the hopes that you mar.

"And when you at last are successful,
And the flower floats down to your feet,
Its colors are no more so perfect,
Its perfume is no more so sweet.

"You leave it to lie on the roadside
(Or else trampling it down in the dust)
And fancy that such is your right here,
To break and to outrage our trust.

"You think us so weak, till we sting you,
And give you at last your deserts;
And then you turn round in your anger
And vow that all women are flirts.

"Believe me, that if you would let us
Be honest and true, as we are,
(Not striving to conquer us always),
The world would be better by far."

GENERAL NOTES.

The cry of "shut the door" is heard no more.

Six States are clamoring for the whiskey bell-punch.

The Count Joannes' chief gesture is tapping his brow.

The "gum" used on postage stamps is a potato starch.

In Minnesota, women are allowed to vote on educational questions.

A school of art, costing $125,000, is to be erected at Manchester England.

The complaint is made that McGregor, Iowa, there are two woman to one man.

A novelty of the Paris Exposition will be an enormous balloon capable of conveying 70 persons.

Railroad men say that the rush of emigration westward has never been exceeded since 1860.

The Khedive of Egypt will come to Constantinople in two weeks to pay his respects to the Sultan.

Maine had 500 divorces last year—an increase of 100 since 1874, and about one to every twelve marriages.

The income of the Archbisop of York is $50,000. The enormous salaries paid to dignitaries is now creating a stir in England.

It speaks well for the Turks as marksmen that it is estimated that one Russian in every six has been killed or wounded.

Samuel Barron Tuesday waltzed continuously for fourteen hours, at Tammany Hall. He seemed little fatigued at the end.

A Chinaman about to die lies with his feet toward the door, in order that his soul on leaving the body may have free exit on its way to Elysium.

There is talk of a grand festival and illumination at Paris on some night during the Exposition, at an expense of half a million francs.

The General Council of the Reformed Episcopal Church, which now numbers eighty-four clergymen and six bishops, will be held in Newark, on May 8.

A German inventor will exhibit at the Paris Exposition a patent scrubbing-brush, which can be turned into a stove with red-hot coals and everything complete.

Lotta is one of the richest actresses on the stage. She draws interest on upwards of $200,000 of Government bonds, and yet can't keep away from the footlights.

As Clara Louise Kellogg views it, every great songstress or actress who marries gets a fellow who spends her money and leaves her to die in poverty; and Clara Louise is not far from wrong.

An "intelligent" auctioneer was selling a small marble statue, and when some one in the crowd asked him if it was sound, he confidently replied that it was as good as the day it came out of the foundry."

"What is the meaning of a backbiter?" asked a gentleman at a Sunday school examination. This was a puzzler. It went down the class until it came to a simple urchin, who said, "Perhaps it is a flea."

When Lady Rosebery entered her husband's house in Scotland, the other day, the housekeeper met her at the door, and in accordance with an old Scotch custom, broke an oat meal cake over the bride's head.

A number of prominent bankers of New York and Philadelphia have been invited by the Congressional Committee on Banking and Currency to go to Washington and confer with the Committee on the resumption policy. The conference will be held Monday.

Washington Star: The mystery about the death of Representative Leonard, of Louisiana, seems to thicken. When the body arrived at Westchester, Pa., it was carefully examined by eminent physicians from Philadelphia and Washington, who assert that he did not die of yellow fever.

There is an absent minded man in Monroe, Connecticut. He went to church the other morning with his overcoat, as he suposed, on his arm, but the laughing of the people in church directed his attention to the fact that he had taken his every-day pantaloons, and that the suspenders attached to them were dangling about his legs.

An Arab of Algiers, claiming to be a French subject, was lately imprisoned without sufficient cause in Tangier, Morocco. The French consul, after procuring his release, demanded that the pasha in command of the district should call at his house, with his whole suite and a troop of soldiers, and apologize for the man's treatment. The pasha refused to submit to the humiliation. The consul informed him that unless he did so two French men-of-war in the Straits of Gibraltar would open on the town. The pasha sent for instructions to the emperor, who ordered him to make the apology in the required form and avoid trouble.

The new principality of Bulgaria according to the Treaty of San Stefano will comprise more than one-half of European Turkey. The territory detached from the Ottoman Empire, as nearly as can be calculated, will measure about 3,500 square leagues, a surface double that of Belgium and Holland put together. The new principality, however, will not be so thickly peopled; with all its additions, it will scarcely number 5,000,000 of inhabitants, that is to say, about as many as Belgium. And yet the old provinces of Bulgara, and Roumelia were the most populous fertile and industrious that Turkey possessed.

LEE'S PREPARED

AGRICULTURAL LIME.

To The Cotton Growers of North Carolina.

The Commissioner of Agriculture having decided that I cannot have an Agency in your State for the sale of this cheap and valuable Fertilizer, without paying a tax of $ 00—which I cannot do without materially advancing the price, I solicit your orders for it, which will be promptly filled on the following terms on board cars in Richmond:

$12 Per Ton Cash, or $15 Per

TON for an approved acceptance on Raleigh, Charlotte, Wilmington, Petersburg, Norfolk, or Richmond, payable on the 1st of November next, or at 8 months from date.

I respectfully refer you to Messrs. J. J. Thomas, Raleigh; J. W. O'Neil, Clayton and others who sold it last spring, and to the various farmers who used it, who say it makes as much cotton as fertilizers costing 3 or 4 times as much. Address,

A. S. LEE,

(From Rev. W. W. Bennett, D. D., Senior Editor Richmond Christian Advocate.)

I have tried the Xanthine, and found it to be all it claims in restoring hair to its natural color and removing dandruff.

W. W. BENNETT.

(From Rev. Mr. Cameron, Minister of the Presbyterian Church South.)

MOSSY CREEK, Tenn., August 22, 1876.

Xanthine Co., Richmond, Va.:

I have used the Xanthine now for three years, and have induced others to try it, and have never known it to fail in accomplishing all you claim for it. It is an excellent tonic a pleasant dressing, removing and preventing dandruff and all unpleasant itching, promoting and preserving the natural growth and color of the hair, and rendering it glossy and pliable. I confidently, cheerfully and knowingly recommend it.

LOCAL BRIEFS.

——No case in the Mayor's court yesterday.

——The law class of Judge Strong now numbers 23.

——Bananas are exposed for sale in front of the fruit stores.

——A Wilmington street grocery was sold yesterday for debt.

——Receipts of cotton in this city yesterday were 110 bales. Market was quiet.

——Gov. Vance made requisition on the Governor of Virginia for two fugitives from justice.

——The workmen are now employed in putting a new tin roof upon the First Presbyterian Church.

——A gentleman farmer of our city has a field of oats which has already attained a height of 18 inches.

——Pastors in our city churches are requested to send in notices of any change in church services to-morrow.

——$25,000 worth of fish has this season been sent from Washington, N. C., over the new Jamesville and Washington R. R.

——The word now is "shoot the hat," the winter style, and appear in the Mackinaw straw. They have made their appearance.

—— Drummers' licenses were issued yesterday to Dix, Bros. & Russel, Wilmington, N. C., and Bates, Reed & Cooley, New York.

——It seems to be now the prevailing opinion that Jno. B. Gretter, of Greensboro, is the author of the "C." letters, particularly of the last one.

——The trains on our lines of rail have borne goodly numbers of passengers the past few days. Travel is on the increase, it seems.

——Seventeen years ago to-day the war opened by the attack on Fort Sumter. Yet there are papers and people, both North and South, who do not seem to know that it is over yet.

——The storm of Thursday seems to have prevailed all over the county. There were large falls of hail-stones in many places, somewhat damaging the fruits. The crop, though, is not injured at all seriously.

Artistic Sign Painting.

Messrs. Bullock & Gorman, painters, have just finished a sign of unusual artistic merit, which has been placed over the cigar manufactory of Jones & O'Neill, on Fayetteville street, next door to the Bagley Building. The sign represents an Indian brave, in full war costume, seated, peacefully inhaling a few puffs of fragrant tobacco. The design is excellent, while the workmanship is not only creditable to the makers, but is as good as can be executed by any Northern firm. The sign will deservedly attract much attention.

The State Medical Society.

L. Julien Picot, M. D., Secretary, requests us to announce that the State Medical Society meets in Goldsboro Tuesday, 14th May, and that arrangements for a reduction of rates have been made with all the railroads. The State Board of Medical Examiners holds its session during the convention, and will examine applicants for license.

A Sensible Farmer.

A venerable farmer of 60 years, came to town yesterday and disposed of his cotton. He informed one of our merchants that he had never, during his life, purchased a pound of bacon, or any supplies of flour, meat &c. for use, having always raised everything in that line needed. His experience is very different from most of our farmers.

The Roanoke and Tar River Agricultural Society.

There will be a meeting of the Executive Committee of the Roanoke and Tar River Agricultural Society, at Weldon on the 16th inst. The object of the proposed meeting is to settle up the past years business; to arrange the premium lists for the next fair, and to fix the date for holding the same. We are happy to say that this society is out of debt and has money in the treasury.

Agricultural Department.

This Department is now sending out blanks for farm statistics, to the commissioners of the counties of the State. These officers are particularly requested to do all in their power to have these forms filled up as promptly and properly as possible. They are absolutely necessary for the publication of the reports of our agricultural progress.

Pardoned.

His Excellency, the Governor, has pardoned Vincent Suttle, convicted of larceny at Fall Term, 1877, of Rutherford Court, and sentenced to two years' confinement in the county jail. The petition for the pardon was signed by the county officers, other officials, and a statement was made that the prisoner was epileptic.

Convicts Discharged.

The authorities of the State Penitentiary will discharge to-day, John Williams, white, convicted of larceny in Forsythe county, and sentenced May 14th, 1877. He is 19 years old, 5 feet 8 inches high, has blue eyes and light hair and weighed when admitted 160 pounds.

Ice for Raleigh.

In the last issue of the Norfolk *Virginian* we see that the Schooner John E. Sandford, a large three-master, was being unloaded of a cargo of Kennebec ice, to be shipped here over the S. & R. & R. & G. Railroads.

The Paper Mills.

Col. W. F. Askew has taken the management of the paper mills of the Falls of Neuse Manufacturing Company.

Patent Concrete Drinking Cisterns.

Mr. T. I. Wells, of Augusta Maine, for some months engaged in building his patent concrete cisterns in Tarboro, is at the Yarbrough House, and will be glad to furnish our people the facilities for pure ice cold drinking water on their premises. These cisterns are built of concrete, in the ground, and the water is therefore always kept cool. In the excavation for the cistern a form is set, into which the broken stone for concreting is poured and pounded down hard. After the cement has set and the concrete walls are hardened, the form is removed, and the space behind walls filled in with earth and beaten down so hard that the walls of the cistern, no matter how large the cistern or heavy the pressure of water, can never spread, and there is no possibility of ever leaking.

The filtering attachment is new and perfect. It is so arranged that the water flows upward through the filterer, instead of down, and it is so simple, and of such construction that a child can clean it in a minute. These cisterns are so constructed that it is impossible for any filth to reach them, and he who drinks at these fountains is assured of pure, clean water.

These cisterns cost four cents per gallon, and will last for generations. Mr. Wells has built them in Tarboro for Messrs. R. H. Austin, David Pender, H. H. Shaw, John S. Dancy, Fred. Phillips, Geo. S. Hawes, Chamberlain and Rawls, and half a dozen others.

No one disputes that drinking water in Raleigh is generally abominable. Many of us are drinking up our ancestors, buried in the old cemetery, while an analysis would show that the water of many of our old wells contains human bile. Our drinking water is poisoned by percolation, and will continue to grow worse. There is little or no hope of water works, for years to come. The only remedy then is in cisterns, if we are to have water fit to drink. Here is an opportunity to obtain it cheaply and effectually. An ordinary family cistern will cost from $200 to $250 only. It is a duty we owe strangers who come to the city to give them water uncontaminated by filth and poison. It is a duty every head of a family in Raleigh owes to himself and household.

Wake Superior Court.

Court met at 10 o'clock, His Honor Judge Seymour presiding.

The following cases were tried and disposed of:

Rand & Wyatt vs. Foard. Judgment non suit.

Coniber vs. Watson. Verdict and judgment for plaintiff.

McKee vs. Barbee. Verdict and judgment for plaintiff.

Criminal docket taken up.

State vs. Thomas C. Horton, on motion, amendment of record allowed. Defendant excepts. Motion by defendant to quash indictment. Continued.

Bastardy docket taken up, and a number of cases disposed of.

In the case of Jinks vs. City of Raleigh, a juror was withdrawn, and a mis-trial entered.

A number of cases on the civil issue docket were continued.

Court adjourned until 10 A. M. to-day.

Marriage of Captain Haywood Clark.

From the Tarboro *Southerner* we take the following:

Capt. Haywood Clark, son of Gov. H. T. Clark, deceased, and at present the popular and polite conductor on the Tarboro Branch of the W. & W. R. R., led to the altar on yesterday, in Warrenton, Miss Mamie B. Jenkins, daughter of the late ex-Attorney General, W. A. Jenkins. The bride is famed far and near for her beauty, amiability, and the many graces of character that go to adorn a perfect specimen of lovely womanhood. The groom is so thoroughly a gentleman, in all the attributes that make up an admirable, manly life, that the marriage creates quite a flutter in high life in Tarboro, his home.

Religious Notes.

A revival of religion, and a most gracious, one, is in progress among the Baptists in Statesville. It is conducted by Rev. J. B. Boone, the pastor, assisted by Rev. A. C. Dixon, of Chapel Hill, one of the most promising of our young divines.

We wish the people in other places would cease there endeavors to persuade our pastors here to remove. One of our clergymen has recently had two invitations to fields in other States, one of which offers a salary nearly double the one he receives here. Both calls were promptly declined. We all desire to retain our present pastors, who, in point of personal merits and intellect as well are not surpassed in the South.

Penitentiary Recruits.

Sheriff J. C. Griffith, of Caswell county brought down 3 colored prisoners, all convicted of larceny: Ned Love, 10 years; Dowd Farmer and Joseph Whitefield, 2 years each.

Deputy Sheriff Daniel Howard, of New Hanover turned over the following convicts, all colored; Sam Robinson, manslaughter, 4 years; William Becton, larceny, 5 years; Solomon Butler, larceny, 2 years; Mark Johnson, do., 4 years; John Morrison, do., 2 years.

State Guard Gossip.

The Winston Light Infantry have selected as a uniform, cut-a-way coats, and pants, of West Point Cadet Grey, trimmed with black stripes. The same style of uniform is worn by many of the Infantry companies of the Guard, and presents a very neat appearance.

Mr. Geo. H. Hall, of Fayetteville, has been appointed an Aid-de-Camp on Brigadier General Taylor's staff, in place of Mr. J. T. Patrick, of Wadesboro, resigned.

Political Notes.

A. M. Erwin, Esq., of McDowell county, a member of the Democratic Executive Committee from the 9th Judicial District has been appointed Chairman in place of Thos. S. Tucker, Esq., of the Committee, who declined the position, Capt. P. C. Carlton, of Iredell, has been appointed a member of the Committee.

The Fall Election.

Inasmuch as there seems to be some dispute about the election of county Commissioners, whether by the Magistrates, or not, and also as to the election of Constables, next fall, will not the Attorney General favor us with a statement of which are the correct modes.

Messrs. Hardin, Grimes & Co.

The above named firm advertise in another column that their stock is complete in every respect. They have just received a large shipment of fine coffees and teas and best of all, they have choice New York State Butter always on hand.

Gold at Par.

The Wilmington papers mention the fact that gold is sold at par in that city, and that the Bank of New Hanover pays it out right along. How are our banks on the subject?

Personals

Captain P. C. Carlton, of Statesville, came down yesterday.

A. M. McPheeters, Esq., is expected to return from Baltimore to-day.

Lt. Governor Jarvis is at the bedside of his dying father in Currituck county.

Captain S. B. Alexander, of Mecklenburg, is stopping at the Yarborough.

Messrs. W. F. Davis and B. A. Capehoart, of Granville, are also registered at the Yarbrough.

Hon. A. S. Merrimon, his wife and daughter returned from Washington city yesterday evening.

G. W. Lawrence, of Cumberland county, Ex-Secretary of the State Grange is also in the city.

The prince of good fellows, Mr. Thos. C. Worth, returned yesterday, after a brief but enjoyable visit to the capital city of the Old Dominion.

Maj. J. M. Blair, formerly of the Yarborough House, is now Clerk of the Boyden House at Salisbury, Col. C. S. Brown, proprietor.

Dr. T. L. Love, our genial State Auditor, returned yesterday from a lengthy visit to his western home. During his absence he has been quite ill, but is now entirely well.

Mr. Wm. Russ, of the N. C. Fish Commission, arrived from the Hatchery at Avoca yesterday, with 100,000 shad, which he placed in the Neuse at McPheeter's Oil Mills, about ten miles from this City.

Capt. S. B. Alexander, Master of the State Grange P. of H., Capt. J. E Porter, of Edgecomb county, Secretary of the State Grange. Dr. J. W. Vick, of Selma, and P. C. Carleton, Esq., of Iredell county, are in the city, stopping at the Yarborough House.

John McDonald, Esq.

The Statesville *American* pays the following deserved tribute to one whose conduct in the matter mentioned has elicited the warmest encomiums from our people: When in Raleigh recently, we saw John A. McDonald, Esq., working as a common laborer on the national court house and postoffice building. "McDonald of Chatham," as he is called, is a well-known public man. He has been a member of the Legislature, of a State Convention, Presidential Elector, &c. He deserves great credit for thus working with his hands for a support for himself and family. We commend his example to many others, who ought to have the plow, the axe, the pick axe, the spade, the hoe, the jack plane, the paint brush, or the wheel barrow in their hands. Let no man be ashamed of labor. Let no man be ashamed of a hard hand or a sun-burnt countenance. The credentials for entrance into good society in North Carolina ought to be that a man has some honest calling, and follows it for the means of living.

A Telephone at Last.

Mr. B. W. Starke, manager of the Western Union Telegraph Co., in this city, has received a Telephone. Connection was made yesterday between the Express office and the Telegraph office. We had the pleasure of participating in a very amusing conversation by means of this little wonder of invention. The tones of the voice in speaking and singing, as well as all noises such as whistling, &c., were perfectly clear.

The instrument consists of a small box, with a call bell on the outside worked by two magnets, concealed by the casing.

These are controlled by electricity generated by two other magnets worked by a crank from the top of the box. This is used to give the alarm. After this is given, the telephones (of which there are a pair) are taken up, and you can then converse. These telephones are of vulcanized rubber, and are connected by means of screws attached to their wires.

The cost of one of the call bells is $15. The Telephones are rented at $10 a year. Mr. Starke is prepared to take orders for them.

On The Tramp.

A man by the name of T. T. Brown, hailing from Columbia, S. C., has been in our city for some time. He was sick at the Cottage Hotel, and after his recovery, was guilty of disorderly conduct, arrested by the police and sent to the workhouse. He has by some means gotten away from that institution and is once again in the city. He exhibits letters purporting to be from prominent men in Columbia. He is an escaped lunatic, and from his appearance and actions must be. He should be looked after.

That energetic Drug firm of Callum, Bros. & Co., Greensboro, N. C., are the liveliest advertisers in the State; they are now getting out a large book expresly to advertise their business which cost them very heavy. If we had a few more such enterprising houses, our printers no doubt would rejoice. These men are doing one of the largest Drug business in the State, and supplying country merchants in the surrounding country, and we bespeak for them a continued patronage. *

BUSINESS NOTICES.

Army and Navy officers make their headquarters at the Colonnade Hotel, Philadelphia. So do leading business men from all sections, while for families and large parties of travellers it also offers unequalled attractions. ap-3. *

The largest and most complete stock of fishing tackle in the State is at Lumsden's. Merchants supplied at low figures. Lumsden also keeps a full stock of brown stone ware, crockery, lamps, tin ware, fluting machines, fountain pumps, table and pocket cutlery, nails, hoes, rakes, shovels, coffee roasters, gem oil stoves, tin chamber setts, and everything you wish to furnish your house with, is at Lumsden's *

The patronage among the first-class hotels in New York is constantly changing from one hotel to the other. The Grand Central hotel has recently incited the direst wrath of its competitors by offering the same accommodations for one and two dollars per day less than the others. ap-3. *

The occasional "hotel grumbler" is not a rarity, but there are few hotels that give the almost universal satisfaction both in rates and accommodation that characterizes the the Grand Central Hotel, New York. It is concededly the best kept and most popular among all its hotels. ap9—d6t.

CHEAP KANSAS LANDS!

We own and control the Railway lands of TREGO COUNTY, KANSAS, about equally divided by the Kansas Pacific Railway, which we are selling at an average of $3.25 per acre on easy terms of payment. Alternate sections of Government lands can be taken as homesteads by actual settlers.

These lands lie in the GREAT LIMESTONE BELT of Central Kansas, the best winter wheat growing district of the United States yielding from 20 to 35 bushels per Acre.

The average yearly rainfall in this county is nearly 35 inches per annum, one-third greater than the much-extolled Arkansas Valley, which has a yearly rainfall of less than 25 inches per annum in the same longitude.

Stock-Raising and Wool-Growing are very Remunerative. The winters are short and mild. Stock will live all the year on grass! Living Streams and Springs are numerous. Pure water is found in wells from 20 to 60 feet deep. The Healthiest Climate in the World! No fever and ague there. Members of our firm reside at Wa-Keeney, and will show lands at all times. A pamphlet, giving full information in regard to soil, climate, water supply, &c., will be sent free on request Address,

PIEDMONT GUANO AND MF'G. COMPANY.

84 SOUTH ST., BALTIMORE, MD.

If you would increase your crop of cotton, use our Guano.

We have testimonials from every section of the State similar to the following:

RALEIGH, N. C., Dec. 20th, 1877.

GENTLEMEN—In reply to yours asking the results of the Piedmont Guano used by me last season, I desire to say that I used five tons, and like it better than any Ammoniated Guano I ever used. It makes the cotton open earlier and matures it well. I shall use it again next season.

Yours respectfully,

N. P. JONES.

AUBURN, N. C., Dec. 29, 1877.

GENTLEMAN—I used Piedmont Guano the past season, together with eight other kinds. I made a careful experiment with them, by taking each which was put in and the cotton carefully as it was gathered. The Piedmont paid me best, I shall use it again next season. C. N. ALLEN.
